

# HiPette

## Fully Autoclavable Mechanical Pipette

The DLAB new generation fully autoclavable manual pipette has the best ergonomic design and ultralight weight. It has been designed keeping in mind the human form and human factors to offer smooth and effortless ergonomic pipetting experience. It is UV sterilisable and resistant to strong chemical corrosion. In addition, the volume lock helps protect from volume changing accidentally, and achieve reliable pipetting of smallest volume of liquids.

NEW

### Ultra-light ergonomic design

Light weight and light pipetting force with soft range adjustment and piston movement offers effortless & fatigue-less pipetting experience.

### Accurate pipetting

Special material and the updated components & technologies effectively reduces the operating force for accuracy, precision and reliability.

### Complete sterilization

The best in class pipette material used is fully autoclavable. It gives better protection against chemical & physical corrosion, and offers enhanced UV resistance for higher durability.

Smooth, Low Force, Effortless Button

Smooth Knob Adjustment  
Light and smooth  
volume adjustment

Ergonomic Design  
Comfortable & Effortless,  
Precise & Accurate

Simple Disassembly  
Easy to maintain periodically

Pull up the  
lock wheel to  
set the volume

One Key Volume Lock Setting

Push down the  
lock wheel to  
lock the volume

Volume Display Window  
New 4-digit volume display

With Filter Element

Reduces volatile liquids entry into the pipette body; helps avoid liquid back-flow caused by improper operation and thus prevents piston corrosion and contamination
